

# 51 RED ANGUS

2025 PROFIT SEEKER FALL SALE

SELLING  
170 BULLS  
100 BRED HEIFERS

*Casey St. Blanc*

## NOVEMBER 20, 2025

AT THE RANCH - SHERIDAN, MT

Dear Friends,

Welcome to our Fall Profit Seeker Sale, where we are offering 166 age advantaged bulls bred to be economically relevant on the ranch and rail, as well as 100 commercial bred heifers from our own replacements. The bulls have been developed for this event and have not been offered for sale previously and have been culled rigorously. Some of their classmates that failed to make the grade were sent to Chappell, Nebraska, and put on feed. Last week they were harvested and, after shrink, weighed 1,726 pounds and gained 4.4 pounds per day for the last 78 days on feed, yielded 63.44%, 100% prime or choice and sold for over \$4,100 a head. That's getting it DONE!

Our national herd is at a 75 year low due to numerous challenges. Since 2017, 17% of all U.S. cattle ranches have been lost, that's over 150,000 operations gone in just eight years. The good news is that demand for beef has increased 9% in the last decade. We can be pretty confident that the increase in demand is due to protein that tastes better. The flavor and taste of beef has never been better. The importance of carcass quality grade has been essential in capturing the consumer's palate.

While we still believe fertility is the number one economically relevant trait for the cow business, that must be coupled with carcass quality to be right for the times. 96% percent of the sale offering is above average for \$Ranch and 80% above average for Marbling. Just under 90% are of the bulls are above average for fertility and 70% are in the top 25%. 70% are below average for mature weight.

Translated: bulls that will sire fertile cows that eat less on the ranch while producing high-quality beef on the rail destined for the plate of the taste-conscious consumer.

Result: profitable beef production that is truly sustainable. Happy rancher AND happy consumer, a true WIN-WIN!

All the bulls will be PAP tested to identify those suited for high elevation. Individual scores will be available before the sale. Please contact us for more information.

We want to thank you for your continued confidence in our program, and we understand that your support allows us to follow our passion for constructing genetic solutions for ranchers' challenges. We also wish to thank our Lord and Savior, Jesus Christ, for His everlasting, unflinching, and sacrificial love and grace, providing daily nourishment, strength, courage, wisdom, and insight to carry on the work He has afforded us. We are so thankful He continues to guide our steps on life's journey.

We look forward to seeing you in Sheridan, MT, on November 20th. Please let us know how we can assist in your travel and better serve your seedstock selection goals.

The very best to you and yours,  
Larry, Lisa, and Family

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

Bid online in Live time at [www.DVauction.com](http://www.DVauction.com)

**DVAuction**  
Broadcasting Real-Time Auctions

View the auction LIVE!  
Bid Online...You're ringside  
right at your desk!

### BUYING ONLINE IS AS 1.2.3...

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved
3. Tune in for the sale and make purchases!

**High Speed Internet:** is required for successful bidding, be sure to check the lag time monitor in the top left corner to ensure real time broadcast.

**Proxy Bidding:** If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest.

**Having Troubles?** During the auction, you can type a message to the operator at the time for assistance. Our full time support team can also always be reached at 402-316-5160

**All bulls are videoed pre-sale and will available online to preview.**

Look for these videos on  
[DVAuction.com](http://DVAuction.com) or  
[5lredangus.com](http://5lredangus.com)

### Conference Call

If you are unable to attend the sale or bid over the Internet, and wish to bid on animals personally we will have a conference call "bid line" during the auction. To use this service please call Larisa 406-596-1205 prior to 10am on sale day. Also if using the conference line, please keep background noise to a minimum to make it better for everyone to hear on the call.

**Bidders who are successful in making purchases via internet or conference call will be contacted by Ranch after sale to settle payment and make shipping arrangements. You will receive an invoice at the email address listed on DVaution account.**

**Buyers unable to attend the sale may send bids to 5L Red Angus, Sale Consultant or Representatives**

### Sale Terms and Conditions

All cattle sell under the standard terms and conditions of the Red Angus Association of America. Terms of sale are cash. For more details look at the back inside cover.

**Volume Discounts:** Will Discount your purchase 3% on 10 or more bulls purchased by 1 buyer.

**Delivery:** We will deliver at least 80% of the distance to your operation. We will not drop at your ranch except on purchases over \$50,000. More Delivery info on pages 3 & 4.

**Sight Unseen Purchase Program:** If you cannot attend the sale and would like to purchase bulls, please give us a call and we'll be glad to help you with your order. We will help you select bulls that meet your specifications. We want to assure you that your bid will be handled with the utmost professionalism and your money handled like it is our own. You can bid through DV Auction, The Conference Call or leave a bid with Larry, Larisa, Larinda or Greg Comstock. We guarantee 100% satisfaction on all orders.

### Herd Health

All bulls have vaccinated with Vision 8 Somnus and Virashield 6 VL5. All bulls have passed a complete fertility test and PAP tested. All cattle will sell with interstate health papers.

### Retained Interest

We are selling a 50% semen interest and full possession in every bull in the sale. This gives us the right to collect semen at our expense and at the convenience of the new owner. The new owner receives the full salvage value of the bull. If anyone has questions in regard to this please feel free to contact us.

### Viewing Cattle

We welcome everyone to come early and view the cattle. They will be in the pens at the sale barn to view. Please reach out with any questions

### Sale Order

Cattle sell in catalog order for your convenience..

### 5L Bull Warranty

#### Optional Protection Against Injury or Death

All 5L bulls come with a guarantee for breeding and structural soundness for one 90 day breeding season. For additional peace of mind, customers can opt for the 5L Ranch Warranty, which offers protection against injury or death of the bull. This is an added service provided by 5L Ranch, not insurance through an outside broker.

#### Key Details of the 5L Ranch Warranty:

Coverage period: 5 months from the purchase date.

Cost: 5% of the purchase price, paid at the time of settlement.

Full details and limitations are available at checkout.

Coverage Terms: If your bull is permanently injured or dies during the coverage period, you will receive credit toward the purchase of a replacement bull. The credit amount will be equal to the original purchase price minus any salvage value.

**Example:** If you purchase a bull for \$5,000 at the April 11, 2025, sale and buy the warranty for \$250, and the bull is injured on January 1, you would sell the bull and receive a credit for \$5,000 minus the salvage amount. If the bull dies, you would receive a \$5,000 credit toward your next bull purchase.

# 5L Delivery Service

## Bull Delivery Information

We strive to make bull delivery as convenient and efficient as possible.

**Within a 500-mile radius of Sheridan, MT** – Free delivery to preferred delivery points.

**500-750 miles from Sheridan, MT** – \$300 delivery fee to preferred delivery points.

**Over 750 miles from Sheridan, MT**

– Delivery will be at cost to preferred delivery points.

The chart in this catalog lists designated Preferred Delivery Points. Please select the two locations that are most convenient for you. These drop points may be adjusted post-sale based on buyer locations and purchases. While this chart serves as a guide, delivery to these specific spots is not guaranteed. If additional locations are needed, we can calculate delivery costs after the sale.

To ensure smooth coordination, please provide your home, office, and mobile phone numbers so we can reach you or anyone involved in receiving your cattle.

## Free Delivery

We provide complimentary delivery to our “preferred delivery points” within the continental U.S. for buyers purchasing \$25,000 or more in bulls. For purchases below these amounts, delivery to our “preferred delivery points” is available at the rates detailed on the following page.

At checkout, please indicate whether you will be arranging your own transport or would like us to manage delivery. If you opt for our delivery service, pick 2 preferred delivery options. Delivery costs for each point will be reflected on your invoice, calculated on a per-head basis.

## Sale Day Load Out

For those who prefer to haul their own cattle, we are happy to facilitate a smooth and efficient process. Self-haul loading is available from Thursday to Saturday. All bulls hauled home by new owners from Thursday- Saturday will receive \$100 credit per bull. If you wish to load during the sale, you must complete payment and present the extra copy of your invoice, which will be provided at checkout. Loading will only occur once this document is shown.

## Receiving Commercial Heifers

All commercial females are sold FOB from the ranch listed in the catalog. Buyers are responsible for coordinating directly with the seller to arrange pickup of the heifers.

## Preferred Delivery Points

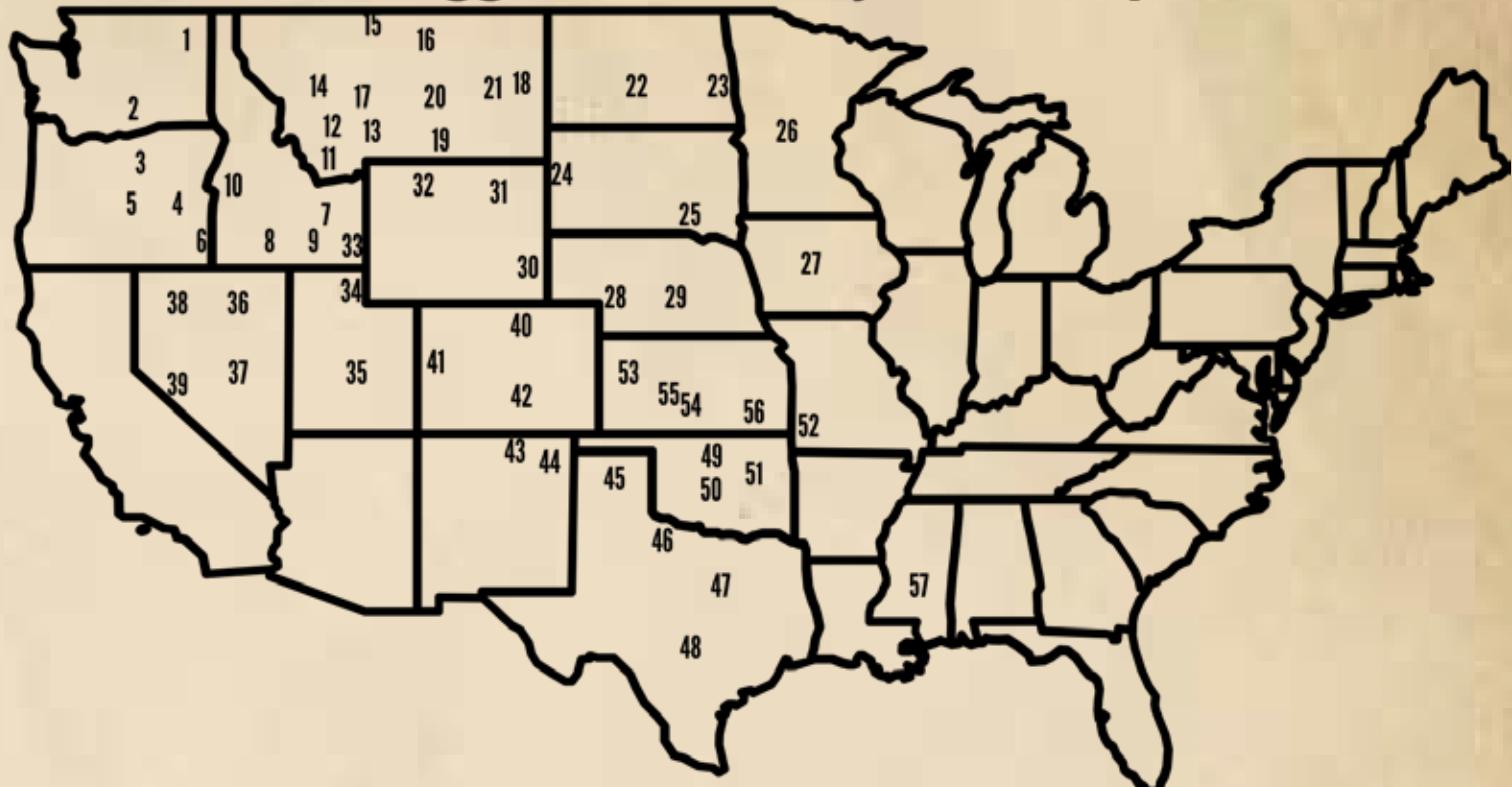

The chart lists designated “Preferred Delivery Points.” Select the two points that are most convenient for you. Note that these drop points may be adjusted post-sale based on buyer locations and purchases. This chart serves as a guide to “Preferred Delivery Points” and does not guarantee delivery to these spots. We can calculate delivery costs to additional locations after the sale. Please provide your home, office, and mobile phone numbers to ensure we can reach you or anyone involved in receiving your cattle for delivery coordination.

## Risk and Insurance

According to the Terms and Conditions at the end of this catalog, all cattle are the buyer’s responsibility once sold. To safeguard your investment, insurance will be available for purchase at the time of settlement. The cost is minimal, and we strongly encourage all buyers to consider this coverage to protect against potential loss. Follow Us on Instagram!

# HOW TO READ THE DATA:

## SALE CATALOG DATA:

## If Your Goal is Profit...Select for it! Use the Index that best fits your Operation

### \$Profit

Developed for operations that raise their own replacements and retain ownership on steers and cull heifers, which are marketed on a Quality Based Grid.

\$Profit assumes a bull will sire 100 progeny over his useful lifespan.

\$Profit Combines all the traits that comprise both \$Ranch and \$Feeder to yield one number that predicts Ranchers' Bottom Lines.

#### \$Profit Example:

- Bull A has a \$Profit of \$15,000
- Bull B has a \$Profit of \$10,000
- = We would expect Bull "A" to produce an additional \$5000 of profit to the ranch over his service life (\$50 per calf x 100 calves) when compared to Bull "B".

Multi-generational use of \$Profit will move both \$Ranch and \$Feeder in a positive direction, just not as fast as the

### \$Ranch

Developed for cow/calf producers who retain their own replacements and market 100% of the steer calves and cull heifers after weaning.

#### Traits included in \$Ranch:

Fertility, Milk, Weaning Growth, Cow Herd Feed Intake and Mature Cow Size

#### \$Ranch Example:

- Bull A has a \$Ranch of \$80
- Bull B has a \$Ranch of \$40
- = We would expect Bull "A" to produce \$40 per head increased profit when compared to bull "B" in a cow/calf operation that raised their own replacements and sold all other calves at weaning.

Multi-generational use of \$Ranch will ultimately result in: moderation in mature cow size, improved fertility, modest gains in weaning weight, improved stocking rates and ultimately - increased pounds of calf harvested per unit of feed/land resource.

### \$Feeder

Developed to compare how bulls will impact profitability in the post-weaning phase (weaning to harvest).

#### Traits included in \$Feeder:

Feed Intake, Post-Weaning Gain, Carcass Weight, Quality Grade (Marbling), Yield Grade

#### \$Feeder Example:

- Bull A has a \$Feeder of \$100
- Bull B has a \$Feeder of \$150
- = We would expect calves sired by Bull "B" to earn \$50 per head increased profit between weaning and harvest when compared to calves sired by bull "A".

Use of \$Feeder in sire selection will maximize Feedlot Closeouts, but with no regard for the cow herd. Thus \$Feeder should be used by herds that purchase their replacement females.

# 5L Simplified Star Ranking

For the first time 5L Ranch has implemented a simple star system to give you an easy, quick glance tool to find the bulls that best fit your goals and needs in our genetics. These stars are designed to direct quick and easy identification of bulls for further consideration, a short list. Then from this more manageable and targeted list one can drill down deeper into the individual traits to make the selection of which bulls would best fit your needs and goals. Below is the breakdown of what each category means and how we see them being used:

- ★★★★★ - Top 20% in the given category
- ★★★★ - Top 21% to 40% in the given category
- ★★★ - Top 41% to 60% in the given category
- ★★ - Top 61% to 80% in the given category
- ★ - Top 81% to 100% in the given category

**AllAround** is just as the name implies – over the entire sale group which bulls do everything well. It includes post-weaning characteristics (feedlot performance and carcass value, with material characteristics. Presented in a user-friendly 5-star system, the more stars the greater the profitability expected to be generated by a bull's progeny across the various segments of the beef supply chain.

**Calving Ease** – whether you're looking for a bull to use on heifers or cows the Calving Ease stars can help you quickly identify either. 5-star calving ease bulls are those that provide us with the greatest degree of confidence when being used on virgin heifers. Conversely, 1-star individuals should only be used on mature cows. Presented in a 5-star system, the greater the number of stars, the higher the calving ease genetics.

**CowMaker** – A fertile and productive cow is the foundation of any herd, use 5L CowMaker to select for bulls to make the next generation of females better than the previous. Focusing on the maternal traits like fertility, cow size and feed requirements, if you raise your own replacements 5-star CowMaker bulls should be at the top of your list. Presented in a 5-star system, the more stars the greater the

**YieldStar** - If your goal is to make the absolute best quality, most profitable carcasses YieldStar is the ranking to use. Focused on terminal traits like high average daily gain, efficient feed conversion, carcass weight and quality grades, 5-star YieldStar bulls will produce calves that cattle feeders want to feed. Presented in a 5-star system, the more stars the higher the predicated profitability of feeding calves produced by those genetics.

**Disposition** - All bulls have been individually scored for disposition by sorting them off in an alley between two scorers to evaluate their reaction and comfort level to being singled out. This 3-star evaluation can be interrupted as:

- ★★★ - Easy to handle, stands quietly in the alley while scoring and is comfortable being singled out of the group
- ★★ - Easy to handle, not as comfortable being singled out but respectful and not challenging toward the scorer
- ★ - More nervous and anxious while being handled. Looking for a way to get away or challenge being singled away from other animals

**WideBody** - WideBody has been a selection staple at 5L Ranch for many years for bulls we use in our program and our astute customer have used to add capacity and shape to their cows. Higher WideBody scores indicate cattle that are wider-based, with a softer flank, a wide spring of rib, bold rib shape, deep heart girth, and more depth and thickness in the hindquarters.

- ★★★ - Everything we've come to expect in a 5L WideBody with just a bit more! Noticeably wider across their top and heart girth, soft in flank, bolder and deeper rib shape with an exceptionally wide base
- ★★ - Prototypical 5L WideBody deep in the rib, lots of shape through their middle, wide base, plenty of thickness
- ★ - More traditionally made or heifer type, not as powerfully muscled while still conformationally correct

We start our Fall 2025 Profit Seeker sale with an amazing WideBody son of Durango. The dam of Lot 1 maintains a 377-day calving interval and average progeny weaning ratio of 110 as an 8-year-old, and that's readjusting to Montana after spending her developmental years in Washington. The really good ones adapt and thrive. Our leadoff bull's been at the front of the pack since weaning earning ratios of 108 weaning, 108 yearling and 108 ADG - and all from a conservative 80 lb. birthweight.

## LOT 1

# RED ANGUS BULLS

## Lot 2

...Earned his single-digit marbling ranks the old-fashioned way, with a 135 IMF ratio! Here's another bull with tremendous depth and shape of rib that is well suited for heifers. Better yet, you'll want to keep every one of his daughters, thanks to his superior ranks for Fertility and \$Ranch.

## LOT 5

### Lot 5...

You'll want to keep every daughter of lot 5, thanks to his elite levels of Fertility and \$Ranch. He comes by those cow herd building traits honestly. His dam is special! She has earned average progeny ratios of: 108 weaning, 106 yearling and 113 IMF.

## Lot 6...

If you like them deep and wide, you'll love the Calving Ease specialist! This stud started out at a modest 62 lbs, but got more valuable with each trip through the chute, earning ratios of 109 ADG and 132 IMF.

# RED ANGUS BULLS

**LOT 48**

**Lot 50...**This Durango son has been one of the top performers since weaning. He earned ratios of 104 weaning, 107 yearling and 112 ADG. His fertile dam maintains a 375-day calving interval and average progeny ratios of 108 weaning 106 yearling and 108 REA.

**LOT 50**

**LOT 51**

**Lot 51...**Here is a Tonto son that is top 1% for F:G coupled with single digit \$Profit, \$Ranch, Fertility and Marbling. THAT is putting it all together!

**Lot 52...**Is in the top 1% for the efficiency with which he converts feed to pounds of beef. And, he is as deep bodied, soft flanked and wide based as any bull in the sale.

**LOT 52**

/5L

## Ranch Ready

# Commercial Heifer Sale

### How the Female Sale will Work...

- The Commercial Females described below will sell during the 5L Fall Profit \$eeker sale just prior to the final pen of Profit Plus bulls. • All female lots will be will divided into “gate cut” of approximately 10 head packages. • During the auction, successful bidders will be given the option to “roll” successive 10 head packages from the same lot in order to put together uniform load lots.
- Unless otherwise stated, all heifers sell FOB from 5L Red Angus, Sheridan, Montana. • Payment must be made prior to cattle being loaded • A pre-sale supplement on DV Auction and the 5L website will provide any breeding or vaccination updates and and descriptions of the 10 head packages.
- Contact Larry Mehlhoff or Greg Comstock at (804) 647-0127 or [greg@groopllc.com](mailto:greg@groopllc.com) for more information about the 5L Commercial Bred Heifer Sale.

## Commercial Heifer Lot

100 head  
Commercial Bred Heifers  
5L Born and Raise at 5L

**Delivery: As soon as practical following the sale.**

**Sale Method: 10 “gate cuts” of 10 head each.**

**Successful bidder may take 10 or all 100.**

# 5L LIFE IS GOOD...

The #1 lowest PAP EPD red animal in the entire \$Profit Red Angus Data Base

His progeny exhibit phenomenal carcass characteristics with moderate mature weight but high carcass weight.

12 Sons selling in the Sale

**52H...**His daughters have beautiful udders, bold rib shape, and are easy fleshing with maternal efficiency. He sires balance and profit sensitive genetics.

# **SOME SAY 5L GENETICS DON'T HAVE ENOUGH GROWTH...**

Check out the data on this set of steers, they were late cut bulls that didn't make the sale...

**1726 live weight  
after 4% shrink**

Thats what dense moderate cattle do...

**Gaining 4.4 pounds a day  
for the last 78 days**

When cattle have body,  
they can eat and they can gain!

**100% Prime and Choice  
63.44% Yield**

44 Steers  
18% Prime  
64% Upper Choice  
Over \$4100 per carcass

## **THATS ENOUGH!!!**

# PROFIT PLUS BULLS

## Profit Plus

(5L's Black Red carriers) have been instrumental in the development of out-cross Red Angus genetics, by incorporating high accuracy Angus carcass genetics into Red Angus' Total Herd Reporting Database, which is better suited for prediction of reproductive traits. The benefits of combining the best of both Red and Black populations are shared by both Red and Black bull customers. Black Angus herds will still have almost entirely black calf crops but will access superior out-cross maternal genetics. Red Angus customers should expect approximately 50% Black calves when these bulls are used on solid Red Angus cow herds.

## LOT 85

**Lot 85...**The Black/Red Life Is Good son crushed the ultrasound with an off-the-charts 202 IMF ratio, and added a 111 REA ratio for good measure. Better yet, he'll work equally well on heifers, "wet" 2-year-olds, or mature cows.

**85**

5L HEAVY TRAVELER 5973

5L ANK DYN 515-456

5L ANK DYN 283-515

We first met Blake Nuffer years ago when he was working for Superior Livestock. Many days were spent together in the video pen through snowstorms, rain, mud, and bulls that wanted no part of Hollywood. No matter the weather or the chaos, Blake always had a smile on his face and was willing to try any new trick to get the job done.

A few years down the road, Blake became one of the owners of Montana Livestock, where he poured his heart into making the sale barn what it is today. He built a great team and worked right alongside them, leading by example and never asking anyone to do something he would not do himself. His dedication, honesty, and grit showed in every sale he helped run.

Blake was always the first to lend a helping hand, whether that meant showing up to help at a branding, sending you home in his personal truck because you broke down at the sale barn, or just taking the time to visit and check in. He gave his time and talent to countless benefit auctions, always supporting kids and local families. He truly had a heart of gold and was an amazing cattle-man who loved people just as much as the livestock.

Blake was a familiar face at 5L, helping run the conference calls for many of our sales. He always showed up with a big smile and a hug, the kind of person who made you feel like an old friend even if you had just met. His laughter, kindness, and steady presence will be missed in every sale ring and every coffee shop conversation.

We will truly miss Blake, but we are grateful for the memories, the laughs, and the example he left behind. The cattle industry and all of us who knew him are better because of him.

Blake Nuffer: February 14, 1958 - October 3, 2025.

## Next up, 5L “Opti-Bulls”...

Heterosis and breed complements are powerful tools. Here at 5L we've spent the last few years developing a product, which will make these tools more accessible as well as more user friendly to our customers. We have identified Charolais genetics that can complement the highly adaptable, maternally balanced and high carcass value genetics of our Red & Black Angus. When combined with 5L Red Angus, the resulting hybrids' genetic makeup will support faster gains, more efficient feed conversion, consistently heavier out-weights, increased dressing percent and capture of yield grade premiums – and they'll still hit the Quality Grade targets 5L genetics have been known from. These bulls are Buckskin in color. They are relatively moderate framed. They are definitely Wide-Bodies, and their dispositions fit within our Red Angus pens. They represent an optimum balance of traits and a user-friendly means to harvest heterosis and capture optimal levels of additive genetic variation available through the Charolais breed. We call them “Opti-Bulls” and they are just one more user-friendly tool 5L provides for our customers' toolboxes to help ensure their continued economic viability.

## LOT 111

**Lot 111...** If you came in second place on our lead-off Opti-bull, here's your do-over. Lot 111 is a half-brother to our leadoff bull and like him combines amazing WideBody shape with superior performance and best 1% ranks for Feed Efficiency, Yield Grade and REA, without getting out of bounds for birthweight or mature size.

“Our 5L Forman first calf heifer calves really performed. They made 40 percent of the steer load and were 65 pounds heavier than anything I have ever sold. Thanks for the consistent bulls and help over the years!”  
 ~Mike Keyser

“We started buying bulls from 5L in 1989. Our cows are run on minimal expenses. They need to raise a calf and get bred! Fertility is important to us! We pregged our 400 cows this year with only 4 opens!”

~Bacon Ranch

# 5L “PrimeLine” Bulls

## Balanced for Performance, Bred for Premium Beef

At 5L, we've spent decades building cattle that work—on the ranch, in the feedlot, and on the rail. Now, we're taking it up a notch with 5L PrimeLine Bulls, a cross between our proven Red Angus genetics and the exceptional carcass quality of American Akaushi.

Akaushi isn't just another breed—it's the key to next-level marbling, tenderness, and flavor. These cattle produce beef with fine-textured marbling that melts as it cooks, creating juicy, flavorful steaks that stand out from the rest. Unlike the overly rich A5 Wagyu,

Akaushi beef delivers that buttery, tender bite without being too heavy—making it the kind of beef people come back for. With 5L PrimeLine Bulls, you get moderate-framed, easy-doing cattle that thrive in real-world conditions while adding carcass merit that speaks for itself. Balanced for performance and profit, these bulls bring the genetics you need to elevate your herd. If you're looking for bulls that can take your program to a new level for carcass quality, 5L PrimeLine Bulls are ready to go to work for you!

**The proof is in the steak!**

*“When you grab a 5L PrimeLine steak and see the marbling, you become excited to fire up the grill. The umami rich flavor will have you asking for more.”*

*~Jeremy Miller - Meat Connoisseur*

# PRIMELINE BULLS

## LOT 140

### 5L PrimeLine Bulls – A New Level of Carcass Quality!

These Akaushi crosses are here to change the game! With unmatched marbling, PrimeLine steaks deliver that rich, buttery flavor that keeps customers coming back. This is our first set of PrimeLine bulls we have offered in the our sale—don't miss the chance to add premium carcass genetics and boost your bottom line!

*"If you're a fan of melt-in-your-mouth Wagyu beef, do yourself a favor and try 5L PrimeLine. Akaushi is a finer version of meat within the Wagyu family and is known as "the Emperor's beef" on behalf of its taste, intense marbling, and higher levels of healthy fats and Omega-3's. This high quality meat is raised locally in the Ruby Valley of Montana on the most pristine mountain water and grasses which adds to the nutritional value by way of extra Omega-3's which are essential for brain and heart health. The PrimeLine New York Strip cut has loads of marbling making this product prime for any five-star restaurant or dinner party at home. My first PrimeLine calves will hit the ground this spring so take advantage of the 5L diversity and bull power of the PrimeLine bulls!"*

*~Gary Myers, Owner, Spur Ranch*

## RANCHER'S SUSTAINABLE ANGUS ALLIANCE

Our Mission is to develop a proprietary, genetic-driven supply chain and management system designed to fulfill demand for high-quality Angus beef.

We believe that **Great Customers**, investing in **Great Genetics**, backed by **Proven Performance**, create **Production Power** — and our goal is to help you maximize your **Profit** opportunities.

RSAA is committed to **continuous improvement**, helping producers stay ahead of the curve through innovation, data, and collaboration. We are building a **cattle feeding partnership** that shares **50% of its profits on your cattle**—purchased directly from you through our RSAA member network.

Our **RSAA Members** are also working to develop a **comprehensive performance database** capturing the full story of your cattle—from **ranch**, **feedlot**, **health** and **carcass** data to **genetic** and **management** metrics. All collected data will be compiled into a report for you and your **RSAA seedstock supplier**, providing insights and guidance to help you make informed, profitable decisions.

Finally, RSAA is actively engaging with **targeted end users** to build relationships, share knowledge, and represent the values of the ranching community. We aim to be a **trusted source** for transparent communication—educating consumers about our **management practices**, **animal husbandry**, and **commitment to stewardship** that ensures success for the **ranch**, the **animals**, and the **people** who care for them.

# PAP TESTING

High Mountain Disease, or commonly known as Brisket Disease, is a common condition seen in cattle raised in regions greater than 5,000 ft of elevation. The disease is characterized by ventral edema in the brisket region that is caused by high blood pressure in the lungs and right sided heart failure. Cattle mortality from this disease can result in the loss of 3% to 5% of the calf crop but has been reported to be as high as 25% and morbidity greater than 40%. Historically, Brisket Disease has been a problem of higher altitude environments but recent evidence has shown that cattle at much lower elevations are being affected, particularly in the high plain's feedlots. All breeds can be affected and often times animals will be "sub-clinical", meaning that they do not show outward signs of being ill but will not grow or produce like they should.

Through PAP (Pulmonary Arterial Pressure) Testing, we can determine an individual animal's potential to develop Brisket Disease and because High Mountain Disease is moderately heritable in the angus breed, we can evaluate that animal's potential to pass on genetic traits that can greatly influence the performance of that animal's offspring. The PAP test can be influenced by several factors other than genetics but because it is an actual measurement, it is far more accurate and reliable than the current EPD that is being used making yearling PAP the most common phenotype used to determine if cattle are tolerant to high altitude production systems.

A crucial component to the PAP test being more reliable and accurate than the EPD is that cattle are tested at the appropriate age and elevation. It is important that cattle being tested are at least 12 months of age when the test is performed and that those animals have resided over 5500 feet of elevation for at least 30 days. The higher in elevation that the animals reside, the greater the confidence we have in our PAP testing data.

In a pulmonary arterial pressure (PAP) test, it is normal for a bull's score to be a few points higher at 18 months of age than it was at 12 months. This increase is generally attributed to the animal's natural growth and increased body size, which can place greater demands on its cardiovascular system.

DR. NICK JOHNSON

## LOT 150

**Lot 150...** This Strategy son shows just how deep the quality runs with his single digit ranks for Feed Efficiency (F:G), Fertility, \$Ranch and \$Profit. His 109 MPPA maternal grandam, 5L Roxie 121-653 of this was one of the most productive and prolific cows in 5L history, not to mention the dam of multiple 5L herd sires.

**Lot 151...** 5L Sale veterans know to read this catalog through the last lot and study every pen. Here we are over 150 lots deep and find one of the best bulls to ever sell in our fall sales. This incredibly powerful King Arthur son comes from a Barricade donor dam that has an average progeny ratios of 110 weaning and 106 yearling.

- ✓ Efficiency Means Profitability

# SALE TERMS, CONDITIONS AND GUARANTEES

Except as outlined in the following terms and conditions, no warranties, either expressed or implied, are provided regarding the merchantability or suitability of the cattle sold at this auction. The warranties and guarantees detailed in these Terms and Conditions replace all other warranties, whether expressed or implied. The remedies specified are the sole and exclusive recourse for the purchaser or any party claiming through the purchaser in the event of a breach of warranty or guarantee, superseding all other obligations or liabilities.

**BIDDING** Each animal will be sold to the highest bidder. The auctioneer will resolve any bidding disputes, and their decision will be final.

**TERMS** Payment must be made in cash or by check to the clerk at the end of the auction. No animals may be removed until full payment is received.

**PURCHASER'S RISK** Each animal becomes the purchaser's responsibility as soon as it is sold. However, the seller is responsible for feeding and caring for the animals at no cost to the purchaser until they are loaded for shipment or until 72 hours after the sale for animals being picked up by the buyer. Animals designated for delivery will be cared for free of charge until they are delivered.

**ANNOUNCEMENTS & SALE DAY SUPPLEMENT** The printed information in the sale day supplement supersedes any printed material in this catalog. Announcements made from the auction block override both the catalog and the sale day supplement. All animals will be sold by lot number as announced. While every effort has been made to ensure the accuracy of this catalog, most information about the animals is sourced from the official records of their respective breed associations.

**PERSONAL LIABILITY** Attendance at the sale is at the attendee's own risk. 5L Ranch, along with its employees, and all individuals involved in the management of the sale, assume no legal liability or responsibility.

**IDENTIFICATION** Each registered animal will be provided with a readable tattoo that matches its catalog designation and registration, where applicable.

**REGISTRATION TRANSFER** Bulls will be transferred and RAAA Certificates will be sent directly from the RAAA association.

**HEALTH CERTIFICATES** Health certificates will be provided for animals leaving Montana once all required testing is complete. Some states have specific testing requirements that may take several days for results, after which our veterinarian can issue the health certificate needed for transport to your state.

**BULL BREEDING GUARANTEE** All animals are guaranteed to be breeders, except in the following cases:

- a) Injury or illness occurring after the sale;
- b) Gross negligence or intentional misconduct by the purchaser;
- c) Animals that are shown competitively after purchase.

A bull will be considered a breeder if it:

- a) Successfully impregnates at least 1/3 of the healthy cows it serves;
- b) Sires 20 or more offspring; or
- c) Settles cows through natural service and passes a fertility test conducted by a qualified veterinarian within any 6-month trial period, as outlined in the "Options and Privileges of Return or Adjustment" section of these sale terms and conditions.

Any guarantees related to semen freezing must be established through a separate agreement between the purchaser and the seller.

**FIRST BREEDING SEASON GUARANTEE** 5L offers a full breeding season guarantee against any injury or issue that prevents the bull from being a breeder during the first breeding season. In the event of a problem, we will provide a suitable replacement or issue full credit, minus the salvage value of the original bull, toward another purchase in a future sale. All bulls sold have passed a breeding soundness exam. We require notification of any injury and reserve the right to obtain a second opinion from a veterinarian of our choosing.

## REGISTERED FEMALE BREEDING GUARANTEE

Females confirmed safe in calf have been examined by a qualified ultrasound or palpation technician and come with this guarantee. Any projected calving dates or date ranges listed in this catalog or sale day supplement are estimates and not guaranteed. Please note that it is common for females to calve up to two weeks before or after their projected date.

Females marked as AI or pasture exposed have been exposed but are not guaranteed safe in calf; they are, however, guaranteed to be breeders.

Open females have been checked and confirmed open, and they are guaranteed as such. These females are also guaranteed to be breeders or to produce viable embryos if the purchaser opts for embryo transfer.

## COMMERCIAL FEMALE BREEDING GUARANTEE

All commercial females sold as safe in calf have been confirmed pregnant by a qualified ultrasound or palpation technician and are guaranteed to remain pregnant until December 1st following the sale. It is not uncommon for a small percentage of females to lose pregnancies between palpation and calving. If a commercial female is found to be not pregnant before May 1st, contact us for reimbursement. The seller will cover the difference between the purchase price and her salvage value.

## SELLER'S SEMEN RIGHTS

Unless otherwise stated in this catalog or sale day supplement, the seller retains a 50% revenue-sharing semen interest, without possession, in each bull listed. Any future semen collections must be communicated to all owners beforehand, with collection costs and semen divided according to ownership interests, unless all owners agree otherwise prior to collection.

For any bull collected in the future, the seller reserves the right to 100 straws of semen with registration rights, contributing their share of collection costs.

Detailed terms related to retained interests in bulls are outlined at the front of this catalog under "Retained Interests in Bulls."

## OPTIONS & PRIVILEGES OF RETURN OR ADJUSTMENT

The following adjustments do not prevent the Purchaser and Seller from mutually agreeing on different terms for resolving any disputes. All claims for adjustments or refunds must be submitted in writing within six (6) months of the sale date or by the time the animal reaches 24 months of age, whichever is later, except for claims related to parentage or defects.

Refunds or returns will be provided as either a replacement animal of comparable quality or as a credit for use on products marketed by the Seller.

- a) This credit will be limited to the purchase price minus the animal's salvage value.
- b) Salvage value is determined as: Market price x the greater of

the "current weight" recorded in September before the sale or the animal's weight at the time of salvage.

If an animal is claimed to be a non-breeder, it may be returned to the Seller's ranch, at the Purchaser's expense, provided it is in good physical condition and meets the Seller's state health requirements. The Seller will have a six (6) month trial period to prove the animal's breeding capability. If the Seller cannot prove the animal is a breeder within this time, the Purchaser may choose between a replacement animal or a credit for products sold by the Seller. Either option will be considered full settlement. If the Seller proves the animal is a breeder, the Purchaser must take the animal back and cover transportation expenses.

If a female sold as "open" is found to be pregnant, the Purchaser may return her to the Seller's farm before calving for a full credit or a replacement animal of similar value. The Seller will cover transportation expenses in this case.

## GENETIC CONDITION, DEFECT & PARENTAGE GUARANTEE

Advancements in technology have helped identify various genetic conditions present in cattle populations for many years. These include, but are not limited to: Arthrogryposis Multiplex (AM), Double Muscling (DM), Dwarfism (DW), Hypotrichosis (HY), Alpha-Mannosidosis (MA), Neuropathic Hydrocephalus (NH), Osteopetrosis (OS), Protoporphria (PR), Pulmonary Hypoplasia with Anasarca (PH), Syndactyly (SN) (Mule Foot), Tibial Hemimelia (TH), Contractural Arachnodactyly (CA) (Fawn Calf Syndrome), Parrot Mouth, and Developmental Duplications (DD). Most of these conditions are thought to be simple recessive traits. Strategic DNA testing and avoiding the breeding of carrier females to carrier bulls can effectively manage these conditions. Results for all potential carriers will be provided in this catalog or the Sale Day Supplement, with carriers marked by a (C) and homozygous animals noted with an (A).

The parentage of animals bred by the Seller is guaranteed to match the Sire and Dam listed on the registration papers for a period of two years from the sale date, under the following conditions:

- a) The Purchaser must notify the Seller in writing immediately after the birth of a suspected defective calf or after determining that a calf is defective or has parentage errors.
- b) The Seller must be given reasonable opportunity to collect DNA samples from the calf and its sire and dam for analysis, at the Seller's expense, to confirm parentage. If parentage is questioned, the Purchaser may also collect DNA samples at their own expense for verification. If the registration-listed Sire or Dam is proven incorrect, the Seller will reimburse the Purchaser for the cost of the analysis.
- c) The animal must be returned to the Seller at the Purchaser's expense, provided it meets the Seller's state health requirements.
- d) Replacement with an animal of similar value or a credit of the purchase price shall be considered full resolution in cases of defects or parentage errors.

In disputes over whether a calf is defective or if parentage is incorrect, the determination referenced in 1a will be made by an agreed-upon expert. If the Purchaser and Seller cannot agree on an expert, each party will appoint a representative. If these representatives cannot reach an agreement, they will appoint a third party to make the final determination.

## RIGHTS AND OBLIGATIONS

The terms and conditions of the sale form a binding contract between the Purchaser and Seller of each animal, applying equally to both parties. Any future sale or resale of the animal will be considered a separate transaction.
