

Annual 'Profit Seeker'
Spring Sale

April 10, 2026 ~ 1 PM MST

At the Ranch ~ Sheridan, MT

Dear Friends,

We are certainly enjoying robust and uncharted prices for beef. Consumer demand continues to grow and flourish. It's a good time to reflect and analyze the current state of the American beef industry and how we strategize for the future. In other words, what really matters — let's focus on some of the important stuff.

Fertility Matters — it is the driver of profit and sustainability in our beef industry. It is more important than any other trait. As obvious as that seems, it is easy to wander away from that basic premise.

The national herd is at a 75-year low, and the U.S. has lost 17% of cattle ranches (150,000+) since 2017. While there are certainly many variables involved in this current state we find ourselves in, fertility must lead the charge to change direction. In this sale offering, 98% are above average for Fertility, and 87% of the offering is in the top 25% for Fertility. First things first.

Cows Matter — while everyone has preferences for the size and shape of cows, we believe the cow should be the engine of efficiency. Forage-based, with as little supplementation as possible to meet her requirements. Truly moderate-sized, with lots of dimension and density so they can run on autopilot. Cows that don't require any extras to stay in the herd. Essential traits like feet and udder quality are not negotiable. A cow's job is to harvest resources on the ranch and turn it into pounds of beef in a package size that optimizes profit. It's not pounds per cow, but pounds per acre. In this offering, 97% are above average for \$Ranch (CowMaker index). There are EPDs and indexes for just about everything, but my favorite number is the difference between inputs and gross income — which is PROFIT. The bottom line... the cow makes the difference.

TASTE MATTERS — why does the consumer keep choosing beef when other meat proteins are less expensive? In the last 10 years, beef demand has increased by 9%. WHY? Beef tastes better. Think about the best steak you've eaten... you may remember a lot about it, but I'm pretty sure you don't remember how much it cost. Without desirable and succulent taste, demand will go down. Great flavor and exquisite taste come from intramuscular fat — something chicken and pork don't have. The consumer is the end user of our product. They want nutritious, tasty, consistent, and moderate-sized portions. Let's listen to them. The average IMF EPD for the entire sale offering is in the top 17%.

All the bulls will be PAP tested to identify those suited for higher elevations. Nearly ½ of the sale offering is in the best 25% for PAP EPD. Individual scores will be available before the sale. Please contact us for information.

We want to thank you for your continued confidence in our program, and we understand that your support allows us to follow our passion for constructing genetic solutions for ranchers' challenges. We also wish to thank our Lord and Savior, Jesus Christ, for His everlasting, unfailing, and sacrificial love and grace, providing daily nourishment, strength, courage, wisdom, and insight to carry on the work He has afforded us. We are so thankful He continues to guide our steps on life's journey.

We look forward to seeing you in Sheridan, MT, on April 9th for our presale gathering at 6:30 pm. Please let us know how we can assist in your travel and better serve your seedstock selection goals.

The very best to you and yours,
Larry, Lisa, and Family

\$250 Credit
for buyers who attend
sale and pay at the ranch
on sale day.

**HOW TO PARTICIPATE AS AN
ABSENTEE BUYER**

Bid online in Live time at www.DVauction.com

DV Auction
402-316-5460

Sale Terms and Conditions

All cattle sell under the standard terms and conditions of the Red Angus Association of America. Terms of sale are cash. For more details look at the back inside cover.

Volume Discounts: Will Discount your purchase 3% on 10 or more bulls purchased by 1 buyer.

Delivery: We will deliver at least 80% of the distance to your operation. We will not drop at your ranch except on purchases over \$50,000. More Delivery info on pages 3 & 4.

Sight Unseen Purchase Program: If you cannot attend the sale and would like to purchase bulls, please give us a call and we'll be glad to help you with your order. We will help you select bulls that meet your specifications. We want to assure you that your bid will be handled with the utmost professionalism and your money handled like it is our own. You can bid through DV Auction, The Conference Call or leave a bid with Larry, Larisa, Larinda or Greg Comstock. We guarantee 100% satisfaction on all orders.

Herd Health

All bulls have vaccinated with Vision 8 Somnus and Virashield 6 VL5. All bulls have passed a complete fertility test and PAP tested. All cattle will sell with interstate health papers.

Retained Interest

We are selling a 50% semen interest and full possession in every bull in the sale. This gives us the right to collect semen at our expense and at the convenience of the new owner. The new owner receives the full salvage value of the bull. If anyone has questions in regard to this please feel free to contact us.

Viewing Cattle

We welcome everyone to come early and view the cattle. They will be in the pens at the sale barn to view. Please reach out with any questions

Sale Order

Cattle sell in catalog order for your convenience..

5L Bull Warranty

Optional Protection Against Injury or Death

All 5L bulls come with a guarantee for breeding and structural soundness for one 90 day breeding season. For additional peace of mind, customers can opt for the 5L Ranch Warranty, which offers protection against injury or death of the bull. This is an added service provided by 5L Ranch, not insurance through an outside broker.

Key Details of the 5L Ranch Warranty:

Coverage period: 5 months from the purchase date.

Cost: 5% of the purchase price, paid at the time of settlement.

Full details and limitations are available at checkout.

Coverage Terms: If your bull is permanently injured or dies during the coverage period, you will receive credit toward the purchase of a replacement bull. The credit amount will be equal to the original purchase price minus any salvage value.

Example: If you purchase a bull for \$5,000 at the April 11, 2025, sale and buy the warranty for \$250, and the bull is injured on January 1, you would sell the bull and receive a credit for \$5,000 minus the salvage amount. If the bull dies, you would receive a \$5,000 credit toward your next bull purchase.

5L Delivery Service

Bull Delivery Information

We strive to make bull delivery as convenient and efficient as possible.

Within a 500-mile radius of Sheridan, MT – Free delivery to preferred delivery points.

500-750 miles from Sheridan, MT – \$350 delivery fee to preferred delivery points.

Over 750 miles from Sheridan, MT – Delivery will be at cost to preferred delivery points.

The chart in this catalog lists designated Preferred Delivery Points. Please select the two locations that are most convenient for you.

These drop points may be adjusted post-sale based on buyer locations and purchases. While this chart serves as a guide, delivery to these specific spots is not guaranteed. If additional locations are needed, we can calculate delivery costs after the sale.

To ensure smooth coordination, please provide your home, office, and mobile phone numbers so we can reach you or anyone involved in receiving your cattle.

Free Delivery

We provide complimentary delivery to our “preferred delivery points” within the continental U.S. for buyers purchasing \$30,000 or more in bulls. For purchases below these amounts, delivery to our “preferred delivery points” is available at the rates detailed on the following page.

At checkout, please indicate whether you will be arranging your own transport or would like us to manage delivery. If you opt for our delivery service, pick 2 preferred delivery options. Delivery costs for each point will be reflected on your invoice, calculated on a per-head basis.

Sale Day Load Out

For those who prefer to haul their own cattle, we are happy to facilitate a smooth and efficient process. Self-haul loading is available from Thursday to Saturday. All bulls hauled home by new owners from Thursday- Saturday will receive \$100 credit per bull. If you wish to load during the sale, you must complete payment and present the extra copy of your invoice, which will be provided at checkout. Loading will only occur once this document is shown.

Receiving Commercial Heifers

All commercial females are sold FOB from the ranch listed in the catalog. Buyers are responsible for coordinating directly with the seller to arrange pickup of the heifers.

Preferred Delivery Points

The chart lists designated “Preferred Delivery Points.” Select the two points that are most convenient for you. Note that these drop points may be adjusted post-sale based on buyer locations and purchases. This chart serves as a guide to “Preferred Delivery Points” and does not guarantee delivery to these spots. We can calculate delivery costs to additional locations after the sale. Please provide your home, office, and mobile phone numbers to ensure we can reach you or anyone involved in receiving your cattle for delivery coordination.

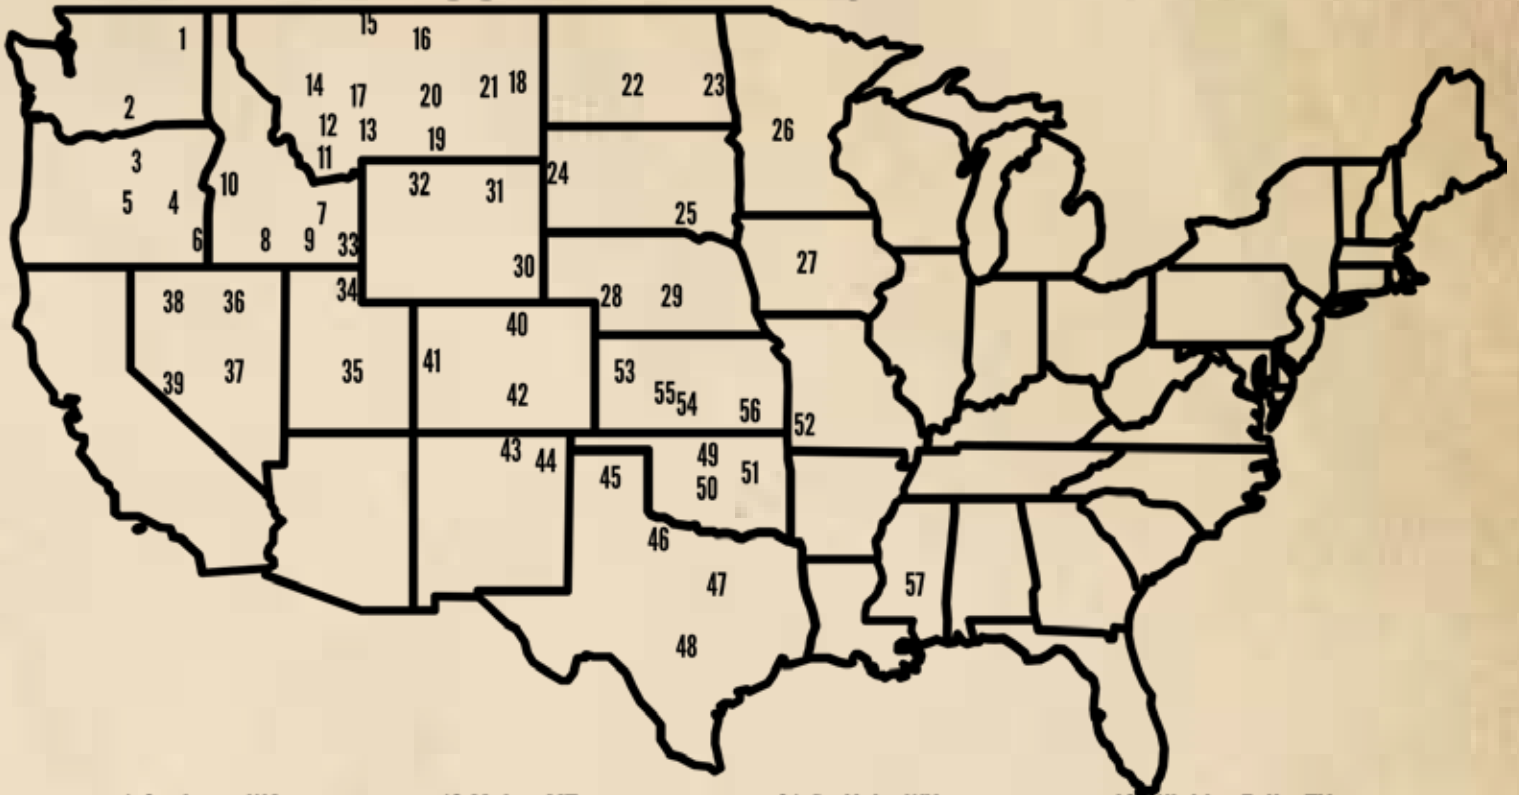

Risk and Insurance

According to the Terms and Conditions at the end of this catalog, all cattle are the buyer’s responsibility once sold. To safeguard your investment, insurance will be available for purchase at the time of settlement. The cost is minimal, and we strongly encourage all buyers to consider this coverage to protect against potential loss.

If Your Goal is Profit...Select for it!

Use the Index that best fits your Operation

\$Profit

Developed for operations that raise their own replacements and retains ownership on steers and cull heifers, which are marketed on a Quality Based Grid.

\$Profit assumes a bull will sire 100 progeny over his useful lifespan.

\$Profit Combines all the traits that comprise both \$Ranch and \$Feeder to yield one number that predicts Ranchers' Bottom Lines.

\$Profit Example:

- Bull A has a \$Profit of \$15,000
 - Bull B has a \$Profit of \$10,000
- = We would expect Bull "A" to produce an additional \$5000 of profit to the ranch over his service life (\$50 per calf x 100 calves) when compared to Bull "B".

Multi-generational use of \$Profit will move both \$Ranch and \$Feeder in a positive direction, just not as fast as the singular use of \$Ranch or \$Feeder.

\$Ranch

Developed for cow/calf producers who retain their own replacements and market 100% of the steer calves and cull heifers after weaning.

Traits included in \$Ranch:

Fertility, Milk, Weaning Growth, Cow Herd Feed Intake and Mature Cow Size

\$Ranch Example:

- Bull A has a \$Ranch of \$80
 - Bull B has a \$Ranch of \$40
- = We would expect Bull "A" to produce \$40 per head increased profit when compared to bull "B" in a cow/calf operation that raised their own replacements and sold all other calves at weaning.

Multi-generational use of \$Ranch will ultimately result in: moderation in mature cow size, improved fertility, modest gains in weaning weight, improved stocking rates and ultimately - increased pounds of calf harvested per unit of feed/land resource.

\$Feeder

Developed to compare how bulls will impact profitability in the post-weaning phase (weaning to harvest).

Traits included in \$Feeder:

Feed Intake, Post-Weaning Gain, Carcass Weight, Quality Grade (Marbling), Yield Grade

\$Feeder Example:

- Bull A has a \$Feeder of \$100
 - Bull B has a \$Feeder of \$150
- = We would expect calves sired by Bull "B" to earn \$50 per head increased profit between weaning and harvest when compared to calves sired by bull "A".

Use of \$Feeder in sire selection will maximize Feedlot Closeouts, but with no regard for the cow herd. Thus \$Feeder should be used by herds that purchase their replacement females.

5L Simplified Star Ranking

For the first time 5L Ranch has implemented a simple star system to give you an easy, quick glance tool to find the bulls that best fit your goals and needs in our genetics. These stars are designed to direct quick and easy identification of bulls for further consideration, a short list. Then from this more manageable and targeted list one can drill down deeper into the individual traits to make the selection of which bulls would best fit your needs and goals. Below is the breakdown of what each category means and how we see them being used:

- ★★★★★ - Top 20% in the given category
- ★★★★ - Top 21% to 40% in the given category
- ★★★ - Top 41% to 60% in the given category
- ★★ - Top 61% to 80% in the given category
- ★ - Top 81% to 100% in the given category

AllAround is just as the name implies – over the entire sale group which bulls do everything well. It includes post-weaning characteristics (feedlot performance and carcass value, with material characteristics. Presented in a user-friendly 5-star system, the more stars the greater the profitability expected to be generated by a bull's progeny across the various segments of the beef supply chain.

Calving Ease – whether you're looking for a bull to use on heifers or cows the CalvingEase stars can help you quickly identify either. 5-star calving ease bulls are those that provide us with the greatest degree of confidence when being used on virgin heifers. Conversely, 1-star individuals should only be used on mature cows. Presented in a 5-star system, the greater the number of stars, the higher the calving ease genetics.

CowMaker – A fertile and productive cow is the foundation of any herd, use 5L CowMaker to select for bulls to make the next generation of females better than the previous. Focusing on the maternal traits like fertility, cow size and feed requirements, if you raise your own replacements 5-star CowMaker bulls should be at the top of your list. Presented in a 5-star system, the more stars the greater the predicted lifetime profitability generated in the cow herd by retaining a bull's daughters as replacements.

YieldStar – If your goal is to make the absolute best quality, most profitable carcasses YieldStar is the ranking to use. Focused on terminal traits like high average daily gain, efficient feed conversion, carcass weight and quality grades, 5-star YieldStar bulls will produce calves that cattle feeders want to feed. Presented in a 5-star system, the more stars the higher the predicated profitability of feeding calves produced by those genetics.

Disposition - All bulls have been individually scored for disposition by sorting them off in an alley between two scorers to evaluate their reaction and comfort level to being singled out. This 3-star evaluation can be interrupted as:

- ★★★ – Easy to handle, stands quietly in the alley while scoring and is comfortable being singled out of the group
- ★★ – Easy to handle, not as comfortable being singled out but respectful and not challenging toward the scorer
- ★ – More nervous and anxious while being handled. Looking for a way to get away or challenge being singled away from other animals

WideBody – WideBody has been a selection staple at 5L Ranch for many years for bulls we use in our program and our astute customer have used to add capacity and shape to their cows. Higher WideBody scores indicate cattle that are wider-based, with a softer flank, a wide spring of rib, bold rib shape, deep heart girth, and more depth and thickness in the hindquarters.

- ★★★ – Everything we've come to expect in a 5L WideBody with just a bit more! Noticeably wider across their top and heart girth, soft in flank, bolder and deeper rib shape with an exceptionally wide base
- ★★ – Prototypical 5L WideBody deep in the rib, lots of shape through their middle, wide base, plenty of thickness
- ★ – More traditionally made or heifer type, not as powerfully muscled while still conformationally correct

JOIN US THE NIGHT BEFORE THE SALE

April 9th • 6:30 PM

Dinner at the Main Ranch

Join us for an evening of good food, great people, and real conversations about what drives profit in today's cattle industry.

FROM THE COW, TO THE FEEDLOT, TO THE RAIL. IT ALL HAS TO WORK.

FEATURED SPEAKERS:

CJ Blew – Blew Partnership

Sharing insight on the foundation of every profitable program — the cow.

Moderate. Easy fleshing. Functional.

Cows that go out, work, and get the job done year after year.

Billy Hall – Chappell Feeders

Bringing the feedlot side of the story, and what cattle actually do when they get there. Billy has fed 5L cattle and will talk about how they perform under real conditions, gaining, staying healthy, and producing the kind of carcasses that bring value.

Because that's where the truth shows up.

At 5L, we don't believe you should have to choose between maternal strength and feedlot performance..

Moderate cows that maintain themselves

Raise a calf, And still produce high-quality carcasses that perform on the rail and make the consumer come back for more.

THE COW MATTERS. FROM PASTURE TO THE PLATE.

Our Mission: to develop a proprietary, genetic-driven supply chain and management system designed to fulfill demand for high-quality Angus beef.

**RANCHER'S SUSTAINABLE
ANGUS ALLIANCE**

Get More for your calf crop with RSAA!

- Capture a greater return on your investment in superior Angus/Red Angus Genetics
- We have a relationship with Cobalt Cattle who will bid on your calf crop and offer revenue and data sharing programs for cattle they purchase directly from your ranch.
- Genetic selection assistance - customized for your steers to hit premium market targets, and your replacement heifers to fit and thrive in your production environment. This can include benchmarking and genetic trend analysis of your bull purchase history and current bull inventory.

IT'S ALL ABOUT THE COW

**The cow is the engine of the ranch
If she doesn't work, nothing else matters.**

At 5L, everything starts with the cow.

She is not just part of the operation — she is the operation.

She is the one that has to go out every day, in every condition, and do her job without being asked twice.

We are not building cows that need managed into production. We are building cows that create production on their own.

That means she has to be efficient. She has to be durable.

And she has to work within a system that keeps costs in check.

**Because in a real-world operation, the cow is either contributing to profit...
or she is taking away from it.**

THE COW IS THE PROFIT CENTER

BUILT FOR A LIVING. PROVEN UNDER PRESSURE.

Fertility

Low Input

Functionality

Longevity

Udder Quality

Easy Fleshing

WHAT WE EXPECT

Breed on time

Calve unassisted

Raise a calf worth selling

Maintain their condition

Breed back

Every year.

No excuses.

No free loaders.

**WE DON'T BUILD COWS TO FIT A SYSTEM.
WE BUILD A SYSTEM THAT PROVES THE COW.**

Halter's solar-powered collars are used to move, monitor and fence cattle from anywhere.

5L FIESTA...

Our favorite 5L Life Is Good son with more capacity than you can imagine!

His dam is the most powerful 5L Body Builder daughter we have! This is the first set of sons to sell...

20 Sons selling in the Sale

52H...His daughters have beautiful udders, bold rib shape, and are easy fleshing with maternal efficiency. He sires balance and profit sensitive genetics.

DIFFERENT BY DESIGN

BUILT TO WORK AND BUILT TO LAST

Our cattle are different.

Not just in how they look, but in how they perform when it matters.

We value phenotype.

A cow should be attractive, functional, and built right. But she also has to back it up every single day.

We breed over 2000 cows each year

That kind of environment exposes fragile cattle.

It builds cattle with density, the kind that hold condition and stay productive.

And it demands cattle that are adaptable, able to adjust and keep working in any conditions.

Over half the herd is out on winter pasture.

No hay fed until mid-March.

And they maintain themselves the way a cow is supposed to.

1000+ COWS.

WINTER GRAZING.

STILL DOING THEIR JOB.

REAL CONDITIONS. REAL PRESSURE.

We've been calving for nearly two months —
and those cows are still out in the pasture.

Calving. Grazing. Doing their job.

Over 10,000 acres.

No barns.

No pampering.

WHEN YOU DON'T HAVE TO FEED OVER 1000 COWS EVERY DAY,

THAT'S NOT JUST MANAGEMENT.

THAT'S THE BOTTOM LINE.

THE BEST COWS DON'T JUST PERFORM...

THEY MAKE YOU MONEY DOING IT.

SOME SAY 5L GENETICS DON'T HAVE ENOUGH GROWTH...

Check out the data on this set of steers, they were late cut bulls that didn't make the sale...

1726 LIVE WEIGHT
AFTER 4% SHRINK

That's what dense moderate cattle do...

GAINING **4.4** POUNDS A DAY
FOR THE LAST 78 DAYS

When cattle have body,
they can eat and they can gain!

100% PRIME AND CHOICE
63.44% YIELD

44 Steers
18% Prime
64% Upper Choice
Over \$4100 per carcass

THATS ENOUGH!!!

BLUE COLLAR COWS. NOT WHITE COLLAR.

Built to work. Not built to be managed.

We don't build cattle to look
good standing in a pen.
We build cattle that go out
and make a living. on autopilot.

They travel. They graze.
They breed. They raise a calf.
Repeat.

No babysitting. No extra inputs.
No excuses.

**If she can't work —
she doesn't stay.**

Cows that earn their keep. Every single day.

5L

Ranch Ready Commercial Heifer Sale

How the Female Sale will Work...

- The Commercial Females described below will sell during the 5L Spring Profit Seeker sale just prior to the Profit Plus bulls. • All female lots will be divided into “gate cut” of approximately 10 head packages. • During the auction, successful bidders will be given the option to “roll” successive 10 head packages from the same lot in order to put together uniform load lots.
- Unless otherwise stated, all heifers sell FOB from 5L Red Angus, Sheridan, Montana. • Payment must be made prior to cattle being loaded • A pre-sale supplement on DV Auction and the 5L website will provide any breeding or vaccination updates and descriptions of the 10 head packages.
- Contact Larry Mehlhoff (406) 596-1205 or Greg Comstock at (804) 647-0127 or greg@groopllc.com for more information about the 5L Commercial Replacement Sale.

Commercial Heifer Lots

Lot C1 - 60 head - Commercial Open Heifers - 5L Born and Raise at 5L

Delivery: As soon as practical following the sale. **Sale Method:** 6 “gate cuts” of 10 head each. Successful bidder may take 10 or all 60.

Lot C2- 90 head - Sword Ranch Commercial Open Heifers

Delivery: As soon as practical following the sale. **Sale Method:** 9 “gate cuts” of 10 head each. Successful bidder may take 10 or all 90. Located at 5L in Sheridan, MT

PROFIT PLUS BULLS

Profit Plus

(5L's Black Red carriers) have been instrumental in the development of out-cross Red Angus genetics, by incorporating high accuracy Angus carcass genetics into Red Angus' Total Herd Reporting Database, which is better suited for prediction of reproductive traits. The benefits of combining the best of both Red and Black populations are shared by both Red and Black bull customers. Black Angus herds will still have almost entirely black calf crops but will access superior out-cross maternal genetics. Red Angus customers should expect approximately 50% Black calves when these bulls are used on solid Red Angus cow herds.

HOMOZYGOUS BLK

LOT 170

Lot 170... We start the blacks with a group of Whole Package sons. 210N is really stout but comes with a 21 CED to 134 YW spread. Top 5% for \$ Profit, Ranch and Fertility.

170

Dr Nick Johnson - PAP testing bulls

YOU REMEMBER GREAT BEEF.

Do you remember the best chicken you've ever had?

Probably not.

Most chicken tastes the same.

What about pork?

Good... but pretty similar.

Now think about the best steak you've ever had.

You remember it.

You don't remember the price.

You remember the flavor.

FLAVOR ISN'T AN ACCIDENT

Flavor is what brings people back to beef.

Flavor comes from one thing:
Marbling.
Intermuscular fat.

It's the difference between beef
and everything else.

Flavor doesn't start on the plate.

It starts with genetics.

Genetics determine:

- **Flavor**
- **Tenderness**
- **Consistency**

IN THE END, IT'S ALL ABOUT THE TASTE.

Next up, 5L "Opti-Bulls"...

Heterosis and breed complements are powerful tools. Here at 5L we've spent the last few years developing a product, which will make these tools more accessible as well as more user friendly to our customers. We have identified Charolais genetics that can complement the highly adaptable, maternally balanced and high carcass value genetics of our Red & Black Angus. When combined with 5L Red Angus, the resulting hybrids' genetic makeup will support faster gains, more efficient feed conversion, consistently heavier out-weights, increased dressing percent and capture of yield grade premiums – and they'll still hit the Quality Grade targets 5L genetics have been known from. These bulls are Buckskin in color. They are relatively moderate framed. They are definitely Wide-Bodies, and their dispositions fit within our Red Angus pens. They represent an optimum balance of traits and a user-friendly means to harvest heterosis and capture optimal levels of additive genetic variation available through the Charolais breed. We call them "Opti-Bulls" and they are just one more user-friendly tool 5L provides for our customers' toolboxes to help ensure their continued economic viability.

MEHLHOFF FARMER OLYMPICS 2025

A LOT OF BREEDERS CHASE THE SPREAD

WE JUST LOOK AT A DIFFERENT ONE.

A lot of people chase the spread.

Birth to yearling.

Growth numbers.

Paper performance.

There's nothing wrong with that.

But that's not the spread we're focused on.

**THE SPREAD WE CHASE IS -
THE DIFFERENCE BETWEEN REVENUE AND COST
THAT'S PROFIT!**

Because at the end of the day:

If your cows cost too much to keep or your cattle don't perform when it matters...
those numbers don't mean much.

We build cattle that:

- Hold condition
- Work in real environments
- Require less input
- Still add pounds where it pays

Because that's where profit comes from.

REVENUE - COST = PROFIT.

5L SIMANGUS Bulls

Power where you want it. Function where you need it

Our SimAngus bulls bring together added performance, muscle, and growth from the Simmental side, backed by the maternal strength, fertility, and longevity of our Red Angus cows. Built with density and adaptability under real-world conditions, they are designed to add pounds and power without sacrificing the kind of females that stay and earn their keep. If you're looking to push performance and still build a cow herd that lasts, this group will do just that.

REDS EARN REWARDS

In the Yard and on the Grid

Chappell Feedlot is seeking Red Angus feeder cattle to purchase or custom feed. Your calves are bred to earn – put them in a program focused on performance, gain and carcass value to capture grid-driven returns. Cattle are finished for grid success, then processed through Sustainable Beef – a plant that rewards premium-quality Angus genetics which meet the Red Angus Live Animal Specifications.

"Sustainable Beef is appreciative of Red Angus genetics and the quality of beef they provide us with for our Angus label."
– Mark Nelson,
Director of Procurement,
Sustainable Beef LLC

"We like feeding Red Angus cattle. They do well in the feedlot and they tie into our relationship with Sustainable Beef to fill our chain space with quality Angus carcasses."
– Tom Williams, Co-Owner, Chappell Feedlot

Let's talk about options for your calves!
Chappell Feedlot

SALE TERMS, CONDITIONS AND GUARANTEES

Except as outlined in the following terms and conditions, no warranties, either expressed or implied, are provided regarding the merchantability or suitability of the cattle sold at this auction. The warranties and guarantees detailed in these Terms and Conditions replace all other warranties, whether expressed or implied. The remedies specified are the sole and exclusive recourse for the purchaser or any party claiming through the purchaser in the event of a breach of warranty or guarantee, superseding all other obligations or liabilities.

BIDDING Each animal will be sold to the highest bidder. The auctioneer will resolve any bidding disputes, and their decision will be final.

TERMS Payment must be made in cash or by check to the clerk at the end of the auction. No animals may be removed until full payment is received.

PURCHASER'S RISK Each animal becomes the purchaser's responsibility as soon as it is sold. However, the seller is responsible for feeding and caring for the animals at no cost to the purchaser until they are loaded for shipment or until 72 hours after the sale for animals being picked up by the buyer. Animals designated for delivery will be cared for free of charge until they are delivered.

ANNOUNCEMENTS & SALE DAY SUPPLEMENT The printed information in the sale day supplement supersedes any printed material in this catalog. Announcements made from the auction block override both the catalog and the sale day supplement. All animals will be sold by lot number as announced. While every effort has been made to ensure the accuracy of this catalog, most information about the animals is sourced from the official records of their respective breed associations.

PERSONAL LIABILITY Attendance at the sale is at the attendee's own risk. 5L Ranch, along with its employees, and all individuals involved in the management of the sale, assume no legal liability or responsibility.

IDENTIFICATION Each registered animal will be provided with a readable tattoo that matches its catalog designation and registration, where applicable.

REGISTRATION TRANSFER Bulls will be transferred and RAAA Certificates will be sent directly from the RAAA association.

HEALTH CERTIFICATES Health certificates will be provided for animals leaving Motana once all required testing is complete. Some states have specific testing requirements that may take several days for results, after which our veterinarian can issue the health certificate needed for transport to your state.

BULL BREEDING GUARANTEE All animals are guaranteed to be breeders, except in the following cases:

- Injury or illness occurring after the sale;
 - Gross negligence or intentional misconduct by the purchaser;
 - Animals that are shown competitively after purchase.
- A bull will be considered a breeder if it:
- Successfully impregnates at least 1/3 of the healthy cows it serves;
 - Sires 20 or more offspring; or
 - Settles cows through natural service and passes a fertility test conducted by a qualified veterinarian within any 6-month trial period, as outlined in the "Options and Privileges of Return or Adjustment" section of these sale terms and conditions.

Any guarantees related to semen freezing must be established through a separate agreement between the purchaser and the seller.

FIRST BREEDING SEASON GUARANTEE 5L offers a full breeding season guarantee against any injury or issue that prevents the bull from being a breeder during the first breeding season. In the event of a problem, we will provide a suitable replacement or issue full credit, minus the salvage value of the original bull, toward another purchase in a future sale. All bulls sold have passed a breeding soundness exam. We require notification of any injury and reserve the right to obtain a second opinion from a veterinarian of our choosing.

REGISTERED FEMALE BREEDING GUARANTEE Females confirmed safe in calf have been examined by a qualified ultrasound or palpation technician and come with this guarantee. Any projected calving dates or date ranges listed in this catalog or sale day supplement are estimates and not guaranteed. Please note that it is common for females to calve up to two weeks before or after their projected date. Females marked as AI or pasture exposed have been exposed but are not guaranteed safe in calf; they are, however, guaranteed to be breeders. Open females have been checked and confirmed open, and they are guaranteed as such. These females are also guaranteed to be breeders or to produce viable embryos if the purchaser opts for embryo transfer.

COMMERCIAL FEMALE BREEDING GUARANTEE All commercial females sold as safe in calf have been confirmed pregnant by a qualified ultrasound or palpation technician and are guaranteed to remain pregnant until December 1st following the sale. It is not uncommon for a small percentage of females to lose pregnancies between palpation and calving. If a commercial female is found to be not pregnant before May 1st, contact us for reimbursement. The seller will cover the difference between the purchase price and her salvage value.

SELLER'S SEMEN RIGHTS Unless otherwise stated in this catalog or sale day supplement, the seller retains a 50% revenue-sharing semen interest, without possession, in each bull listed. Any future semen collections must be communicated to all owners beforehand, with collection costs and semen divided according to ownership interests, unless all owners agree otherwise prior to collection.

For any bull collected in the future, the seller reserves the right to 100 straws of semen with registration rights, contributing their share of collection costs. Detailed terms related to retained interests in bulls are outlined at the front of this catalog under "Retained Interests in Bulls."

OPTIONS & PRIVILEGES OF RETURN OR ADJUSTMENT

The following adjustments do not prevent the Purchaser and Seller from mutually agreeing on different terms for resolving any disputes. All claims for adjustments or refunds must be submitted in writing within six (6) months of the sale date or by the time the animal reaches 24 months of age, whichever is later, except for claims related to parentage or defects. Refunds or returns will be provided as either a replacement animal of comparable quality or as a credit for use on products marketed by the Seller.

- This credit will be limited to the purchase price minus the animal's salvage value.
- Salvage value is determined as: Market price x the greater of

the "current weight" recorded in September before the sale or the animal's weight at the time of salvage.

If an animal is claimed to be a non-breeder, it may be returned to the Seller's ranch, at the Purchaser's expense, provided it is in good physical condition and meets the Seller's state health requirements. The Seller will have a six (6) month trial period to prove the animal's breeding capability. If the Seller cannot prove the animal is a breeder within this time, the Purchaser may choose between a replacement animal or a credit for products sold by the Seller. Either option will be considered full settlement. If the Seller proves the animal is a breeder, the Purchaser must take the animal back and cover transportation expenses.

If a female sold as "open" is found to be pregnant, the Purchaser may return her to the Seller's farm before calving for a full credit or a replacement animal of similar value. The Seller will cover transportation expenses in this case.

GENETIC CONDITION, DEFECT & PARENTAGE GUARANTEE

Advancements in technology have helped identify various genetic conditions present in cattle populations for many years. These include, but are not limited to: Arthrogryposis Multiplex (AM), Double Muscling (DM), Dwarfism (DW), Hypotrichosis (HY), Alpha-Mannosidosis (MA), Neuropathic Hydrocephalus (NH), Osteopetrosis (OS), Protoporphyrin (PR), Pulmonary Hypoplasia with Anasarca (PH), Syndactyly (SN) (Mule Foot), Tibial Hemimelia (TH), Contractural Arachnodactyly (CA) (Fawn Calf Syndrome), Parrot Mouth, and Developmental Duplications (DD). Most of these conditions are thought to be simple recessive traits. Strategic DNA testing and avoiding the breeding of carrier females to carrier bulls can effectively manage these conditions. Results for all potential carriers will be provided in this catalog or the Sale Day Supplement, with carriers marked by a (C) and homozygous animals noted with an (A).

The parentage of animals bred by the Seller is guaranteed to match the Sire and Dam listed on the registration papers for a period of two years from the sale date, under the following conditions:

- The Purchaser must notify the Seller in writing immediately after the birth of a suspected defective calf or after determining that a calf is defective or has parentage errors.
- The Seller must be given reasonable opportunity to collect DNA samples from the calf and its sire and dam for analysis, at the Seller's expense, to confirm parentage. If parentage is questioned, the Purchaser may also collect DNA samples at their own expense for verification. If the registration-listed Sire or Dam is proven incorrect, the Seller will reimburse the Purchaser for the cost of the analysis.
- The animal must be returned to the Seller at the Purchaser's expense, provided it meets the Seller's state health requirements.
- Replacement with an animal of similar value or a credit of the purchase price shall be considered full resolution in cases of defects or parentage errors.

In disputes over whether a calf is defective or if parentage is incorrect, the determination referenced in 1a will be made by an agreed-upon expert. If the Purchaser and Seller cannot agree on an expert, each party will appoint a representative. If these representatives cannot reach an agreement, they will appoint a third party to make the final determination.

RIGHTS AND OBLIGATIONS

The terms and conditions of the sale form a binding contract between the Purchaser and Seller of each animal, applying equally to both parties. Any future sale or resale of the animal will be considered a separate transaction.
