Fellow Drovers...

"80 and Sitting Tall"
A Bronze of Mr. Les Bunge, grandfather of Bunge Halla and a great Texas Drover!

Welcome to the **Fourth** Annual **Texas Drovers Bull & Commercial Female Sale** here at Caroleta Ranch, south of Weimar, Texas, on the second Saturday of December each year. The quality just keeps improving and we are excited about this year's offering of 85 stout Brangus and Ultrablack bulls, along with a special feature of 50 strong M6 Genetics Charolais bulls that will create a bunch of interest in the marketplace. In addition, the 400 Commercial Females offered are truly a special group of females that are consignor bred and raised to create brood cows so needed to rebuild our nation's cowherd. **Texas Drovers** was developed over 4 years ago by Bunge Halla and Joe Fuller out of a desire to create an event where cattlemen can gather and drive to new heights through sharing technology and genetics to ensure a sustainable future for the cattle industry. These beliefs drove us to create an event of like-minded cattle folks that use cutting-edge tools like DNA testing, complete performance panels and advanced reproductive technologies. We are presenting you with cattle that have the highest standards of health and nutritional management in place. In other words, come with confidence that you can procure the right kind of genetics at this sale, whether you are looking for Brangus, Ultrablack or Charolais bulls or are looking to add high-quality and reputation, ranch-raised replacement females. We believe there will be an extended period of elevated calf prices into 2026 and beyond as the nation's cowherd is taking an extended time to expand.

We have cornerstone operations that have made this possible. **American Cattle Enterprise** is owned by the Cleveland and Wiley families, and they have cattle in Alabama, Louisiana and Texas and anchor the Brangus section of the sale with a great set of bulls from their operation along with their genetic cooperators. New this year is an elite offering of Charolais Bulls from **M6 Genetic Partners**, and these bulls offer a genetic goldmine. **Cross F Cattle** from Willow City, Texas will again offer top-end Brangus bulls from their elite program. The over 100-year-old **Kaechele Ranch** of Wallis, Texas, operated by Frank and Bonnie Reznicek, is again the anchor commercial replacement consignor with a choice set of long-bred ¼ blood Brangus heifers, along with a fancy set of open heifers. **A sale feature from Kaechele Ranch this year is 50 head of 3-year-old F-1 Brahman x Hereford bred females coming with their second calf...truly an outstanding set of females that are hard to find!** In addition, you will appreciate all the ranches that have consigned high-value cattle that will add premium genetics to your operation.

We would also like to invite you on Friday, December 12th, to preview the sale offering all day and join us for a steak supper, refreshments and fellowship at 6 pm. We could not have done this without the great sponsors, and our thanks go out to Zinpro Corporation, The First State Bank of Louise, Oak Grove Vet Clinic, United Ag Coop and Purina Animal Nutrition, Lockhart Auction, Inc. and Texas & Southwestern Cattle Raisers Association.

Texas Drovers, a legacy of cattle drovers of old, with a keen focus on utilizing cutting-edge technology, genetics, nutrition, management, health, finance, and marketing to ensure that the next generation can still drive the cattle industry along sustainable and profitable trails. We look forward to seeing you!

Best Regards,

Bunge Halla

IBBA EPDs
EPD and EPD % Ranking within breed

EXPECTED PROGENY DIFFERENCE (EPDs) is the best estimate of an animal's genetic merit for a particular trait. It takes into account the animal's own performance compared with its contemporaries and the performance of its relatives compared against their contemporaries.
Birth Weight (BW) EPD predicts calf size and calving ease.
Weaning Weight (WW) EPD predicts preweaning growth potential.
Yearling Weight (YW) EPD predicts overall growth potential. Milk EPD predicts the maternal contribution to weaning weight of the calf through milk production, behavior, immunity and other maternal environmental factors.
Scrotal Circumference (SC) EPD predicts not only testicular size of male progeny but also daughters onset of puberty.
Terminal Index (TI) combines birth weight, weaning weight, milk production, post wean gain, bulls with a +2 index are two standard deviations above the average. Higher numbers are superior to low numbers.
Fertility Index (FI) combines heifer pregnancy, stayability, days to first calving, mature cow weight, and back fat EPDs into a single number. The index is expressed as s standard deviation from the breed average, meaning that bulls with a +2 index are two standard deviations above the average. Higher numbers are superior to low numbers.
Ribeye Area (REA) EPD predicts total muscle.
Intramuscular Fat (IMF) EPD predicts percent of intramuscular fat which is highly correlated to marbling.
**REA and FT are primary components of USDA Yield Grade and marbling is the primary component of USDA Quality Grade.*

EPD PERCENTILE RANKINGS
Individual ranking relative to the entire breed population on a specific trait, represented in the form of a percentage, with 1% being best and 99% being worst.

TERMS AND CONDITIONS

BIDDING Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.
TERMS Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of $5 per day will be assessed until pickup.
SIGHT UNSEEN PURCHASES Buyers may purchase females or bulls through the owners, American Cattle Enterprise personnel at auction without viewing the cattle. For sight unseen purchases, the buyer has the right of inspection at the time of delivery. If the animal is deemed unsatisfactory, it may be reloaded on the delivery truck and returned to female or bull owners ranch at no obligation to the buyer. All transportation expenses will be the responsibility of the seller. If the animal is deemed unsatisfactory within one week of the purchase, the buyer may at their expense, return the animal to the female owner's ranch for a full refund of the purchase price.
CERTIFICATE OF REGISTRY A transferred certificate of registry will be furnished to the purchaser for each registered animal once proper settlement has been made.
HEALTH Health papers suitable for interstate shipment will be furnished on all animals.
ANNOUNCEMENTS Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.
BREEDING GUARANTEE **1.** All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason. **2.** All bulls, including yearlings, have been tested as clear for Trichomoniasis. **3.** Safe in calf females have been examined by competent personnel and are so guaranteed. **4.** Exposed females have been exposed but are not guaranteed to be safe in calf. **5.** Open females have not been served and are so guaranteed. **6.** This is not a life insurance policy. Seller will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that yearling bulls should be fed so they can continue to develop properly.
PREGNANCY DETERMINATION The commercial females in this sale noted safe in calf have been determined pregnant by physical palpation or ultrasound technology.
OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT **1.** All claims for adjustment or refund must be made in writing within six months of the sale date. **2.** In the event an animal is claimed to be a non-breeder, the animal may be returned to owner's ranch, if in good condition and complying with the health requirements of their state. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation. **3.** If an animal is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller. **4.** If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
RIGHTS AND OBLIGATIONS **1.** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction. **2.** Neither Texas Drovers staff nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

FROM OUR CORNERSTONE SEEDSTOCK PROVIDER

Welcome...This is the 4th Annual Texas Drovers Sale and it has become an annual event we really enjoy participating in and look forward to each year. Bunge, Korby, Cheryl and Joe work hard to make this a great weekend for agriculture in this area.

American Cattle Enterprise team is pleased to offer these stout bulls to the public. You will find cattle with Growth and Power as well as bulls that will manage birth weight for your heifers. We also take pride in our commitment to high-quality carcasses with cattle that have superior IMF and REA.

Trey Kirkpatrick

There are certainly herd sire prospects in this sale for the registered cattleman, as well as quality bulls for the commercial producer who wants a highly marketable calf crop. Sound and functional cattle that will grow efficiently and grade are our goals.

It is always an honor to put forth cattle for your appraisal of fellow cattlemen and cattlewomen. We look forward to seeing you at the sale and don't hesitate to contact us with any questions you might have.

American Cattle Enterprise

GENETIC EXCELLENCE

Tremendously impressive herd sire prospect here by the $115,000 Blackwater bull owned by Triple J-R and ACE and whose progeny are highlighting sales across the country and out of the highlight donor 129K10 owned by Peanut Carr. His dam is also a full sister to the impressive Lot 7 bull in this sale, so you know that there is bred in predictability in the genomics. He is stout made, great phenotype and right-sized for today's cattle industry. He is a growth and carcass-oriented sire with 11 Traits in Top 25% or better. He will move your program forward.

UNIQUE OPPORTUNITY

The cattle industry needs cattle that flesh easily, are fertile and produce pounds and this unique Herd Sire Prospect offers so much genetic depth and strength. On his hip indicates the prolific 53 cow family that traces all the way back to the B3R program known for maternal strength and his dam's full siblings have generated over $100,000 in sales. Unique genetic blend here with the highly popular Sho Time sire that adds that extra genetic pop. He posts up 12 EPD Traits in the Top 1/3 of the breed for impressive credentials. This bull could be the one you have been looking for!

MUSCLE & MILK

Here could be the Sho Boat son you have been looking for, as he is one classy herd sire prospect with all the bells and whistles. This clean made, upstanding bull brings that extra muscle and marbling and he proves it as his yearling ultrasound REA reading was 15.25 with a 1.33/cwt and 115 ratio, along with a 4.52 IMF. His heavy milking mother was a first calf heifer who stuck AI twice in a row and brought in a keeper Hugo heifer calf this year. Many breeders want to add some milk EPDs to their herd profile and here is a bull that can do that and put some super-looking progeny on the ground. Surely a sale highlight here with 12 EPDs in the Top 25% or better!

ACE IN THE BULL

Royally bred bull here with some of the greatest donor cows in the breed, building the genetic foundation for this highly attractive herd sire prospect by the Ace of Spades bull and out of a dynamic Big Lake daughter tracing back to the high-performance 795 cow family. This super easy-going bull has a world of depth, volume and bone and a gravitating phenotype that will produce more attractive progeny. Those breeders who want both phenotype and genotype will mark this one down when they lay eyes on him. He posts 11 EPDs in the Top 25% or better and comes with fresh genetics for the breeder who wants to add dimension to their breeding program.

BALANCE OF POWER

This Perfect Storm herd sire prospect carries an outstanding genetic profile along with a super gentle disposition to boot. His donor dam is a mainstay at Cross F Cattle/Eagles Crest Cattle as she is a super strong Oracle daughter who produces top-end progeny and looks great doing it with as good an udder as you want to draw on a cow. He hails from the power-packed performance 7139 cow family from Cavender Ranches and we are keeping 2 full sisters to this bull. Perfect Made has a nice, balanced set of EPDs with 10 traits in the Top 25% or better.

POWERFUL LINEAGE

Good looking dude here with an impressive pedigree and siblings that have written quite a history, generating well over $100,000 in sales at Quail Valley sales. Three of those sisters are in donor programs at Cavender Ranches, Everlasting Comfort and GKB Ranches. This bull's full sister is also the dam of the Lot 1 bull in this sale. His sire, Empower, is a proven sire that puts stout-made, rugged bulls out that will add extra performance and dimension to progeny. This bull ranks in Top Third in breed for 11 traits.

ACE Triple Crown 188M3 ▪ Lot 8

TRIPLE CROWN WINNER

Certainly one of the top-end Calving Ease prospects in the sale with Triple Crown winning credentials and genetic speed to burn! This is one of the bigger boned Triple Crown sons you will find and you will love the extra depth and stoutness that carries through. He wins the Triple Crown by winning all three Calving Ease, Growth and Carcass Traits! He posted a very impressive 13 Traits in the Top 25% EPD profile, which ranks him in the elite in the breed. He is out of a Burly dam, which was a first calf heifer and then bred right back to calve 3 weeks early for her second calf.

BIG TIME BIG LAKE

Mike Weathers of Genesis Ranch in Columbus is bringing the heat with his bulls in Texas Drovers and this Big Lake son will lead off his powerful offering. This big boned, moderate-made bull has all the credentials to have cattle folks take note and include him as one to buy. His 3D dam, hailing from the famed 607 cow family, nicked perfectly with Big Lake to produce this attractive and stout herd sire prospect with 9 Traits in the Top 1/3 of the breed. This bull will get the job done.

PREMIER GENETIC PACKAGE

One of the really intriguing calving ease herd sire prospects to sell this fall with a superlative genomic profile that ranks him as one of the elite bulls to sell in the Brangus breed. He is Top 1% an incredible 5 Traits, including WW, YW, SC, REA and TERM and in addition racks up Top 10% in IMF and Stayability, along with being Top 40% for CED and BW. His Land Line dam from the prepotent 468 cow family has already produced a herd sire in use with Dr. Carter in Arizona and with her production, we put her in our donor program. We thought enough of this young herd sire that we used him to clean up on heifers for 60 days and he settled all of them!

OUTCROSS EXCELLENCE

VERY INTERESTING INDIVIDUAL here in this very appealing phenotypically and genetically appealing herd sire prospect that leads the yearling bull section off this year. He is by our Bone In bull, who, as we know, names count, is a stout boned son out of the immortal Camp Cooley donor Ms Brinks New Era 468P22. His mother is an Angus cow who had 6 straight fall calves with a less than 365-day calving interval and who is sired by the Boyd Authority bull. You will love his length and strength from nose to tail and appreciate his performance data all the way from birth to yearling ultrasound. Studying his genomic profile will find him having 11 EPD traits in the TOP 15% including that elusive Milk EPD where he ranks in the TOP 10%! If you want to supercharge your breeding program, this prospect may be in your future.

UPSTANDING YOUNG BULL

Another impressive Bone In son here out of a young BWCC cow that has had 4 fall calves in a row and done a great job on each of them and this is her first son born and boy, did she do it right! He posts some impressive Ultrasound stats with a REA ratio of 107 and an IMF ratio of 121! He was also born modestly at 66# and carries along a Top-end Calving Ease and BW tally. Overall, he records 14 traits in the upper 1/3 of the breed. If you need a calving ease sire with extra punch, this bull is the ticket.

Dear Cattle Producers...

On behalf of all the breeders that have brought their best, WELCOME to the **TEXAS DROVERS Bull and Commercial Female Sale** at the Caroleta Ranch sale facility. You are invited! Consider this your personal invitation to acquire genetics designed to maximize profits. This offering features M6 Charolais genetics that deliver MORE pounds in FEWER days with LESS feed.

Take advantage of this record-breaking market that celebrates and rewards extra pay weight. Charolais genetics are the King of cow country for generating more pounds. Through decades of intense selection pressure M6 Charolais genetics have been set apart for consistently delivering more options and maximizing profits for cow-calf operators and feeders. For more than 50 years, M6 Charolais genetics have been built to add value with proven industry-leading results. These genetics are designed to produce High Growth, Early Maturity, Easy Calving, Feed Efficient and Carcass Quality cattle. Also, do not undervalue the Charolais-influenced female. Everybody who has them knows, those "yellow and smokey" cows wean the heaviest calves every year.

Thank you to our regular customers. Your success and support keep us in business. These breeders and consignors are so proud to be associated with producers like you that continue to invest in better bulls and females. You are some of the best cow-calf operators in the country and your commitment to excellence challenges us to offer the best possible product. We need each other and are "Better Together".

We are EXCITED about this offering! There is an abundance of riches in terms of the quality these bulls and females possess. It is worth the trip to this sale just to let your eyes feast and your mind to imagine how these good cattle could add value to your operation.

Please accept this invitation to attend this **TEXAS DROVERS Sale**. If any of the sale staff and/or consignors can do anything to help you participate on Saturday, December 13th, 2025, or make it a more enjoyable experience, please let us know.

Warm Regards,

Kevin Moore

M6 CHAROLAIS GENETIC PARTNERS

SELLING CHOICE of LOT 100 and LOT 101

5016 & 5017 are flushmate brothers of 6 full brothers in this sale. Previously, two flush mate brothers were the high-selling lots at Bradley 3 Ranch Wide Body Bull sale this past spring, with the high seller going to Next Gen for $29,000. The other mate went to Vest Ranch for $15,000. Now you have the opportunity to decide which is the best: 5016 or 5017. We are offering choice of these Herd Sire prospects because we couldn't decide which one to start the sale with. They are well-made and extremely attractive Silver Gun sons.

EJS Ms Cool Standard 011 PLD • Dam of Lots 100, 101, 102, 104, 107, 111

5019 rises to the top as the youngest of the Top 3 brothers, but not the least. He is an impressive sire prospect, featuring an elite phenotype, sound structure, and an overall complete bull. With 10 traits in the top 5% WW, YW, MCE, SC, UDDER, TEAT, TSI 320, CW, REA, MARB. Don't look over this excellent Herd Sire just because he's younger! His Actual BW of 84 lbs. and Actual WW of 755 lbs. are just further indicators of his future greatness.

EJS Ms Cool Standard 011 PLD is a combination of M6 Cool Rep 8108 and M6 New Standard 842, which is the foundation of our genetics. She is an extremely attractive cow with a big spring of rib, deep bodied with extreme length. She has great feet with a beautiful udder and teats. We raised her mother and grandmother. Her great-granddam 655 was the pick of Wienk's heifer crop and goes back to the renowned 8742 cow.

TEXAS DROVERS COMMERCIAL FEMALES

THE 400 COMMERCIAL FEMALES SELL SATURDAY, DECEMBER 13TH IMMEDIATELY FOLLOWING THE BULL SALE! !

▪ The Commercial Females selling in this sale are all home born, bred and raised cattle that are thoughtfully produced for high-quality commercial replacement seedstock and are all calving in tight windows, reflecting the high-quality management of the consignors.

▪ The Commercial Female consignments will be sold in mostly lots of 5 with some up to 10 head per lot and sorted by consignor, class, pregnancy status and breed. We will have some pens of 3-4 head for those families looking for commercial open heifer projects.

▪ Cattle will be in pens that they will sell as and be individually tagged and sold via video in their respective groups. Cattle available for viewing on Friday morning.

▪ The price paid will be the final bid price times the number of cattle in group sold.

▪ Specific lot numbers, pen numbers and sale order will be available on Friday.

TEXAS DROVERS
BULL & COMMERCIAL FEMALE SALE

The Offering...

KAECHELE RANCH

▪ **50 Heavy Bred** Three-year-old F-1 Brahman x Hereford cows coming with their second calves sired by Connealy Angus bulls and some may be pairs by sale time. These are as fancy and as good as any F-1s sold in the country this year.

▪ **30 Bred** F-1 Brahman x Hereford and Brahman x Angus heifers bred 6-8 months to low birth weight Connealy Angus bulls. These are high-quality heifers that are the front pasture kind.

▪ **170 Bred** ¼ Brahman black and black baldie heifers bred 6-8 months to low birth weight ACE and FENCO Farms Brangus Bulls. These are tried and true females that make real mama cows. Ask the folks who have bought them before.

▪ **20 Open** ¼ Brahman black super baldie heifers. Fancy as they come and will fit well for Commercial Pen Show Prospects or to show off to your neighbors.

The Offering Continued...

AGGIE FARMS

- **13 Pairs** Brangus and Brangus baldie first calvers with Brangus calves sired by AI sire VF Final Time 468L79. Great set of pairs for replacements or recips.

- **17 Heavy Bred** Brangus and Brangus baldie first calvers that should be calved out by sale time. Calves by low birthweight Brangus bull VF Final Time 468L79.

- **25 Bred** Brangus and Brangus baldie first calvers bred to calve Jan-Feb to VF Final Time 468L79. Heifers AI'd then cleaned up by the same sire - 60 Day Calvers.

- **20 Open** Brangus and Brangus Baldie heifers by ACE bulls. These nice heifers will fit well for Commercial Pen Show Prospects or top-quality replacements.

- **5 Bred** Three-year-old Red Angus cows coming with their second calves by Brangus AI sire, VF Final Time 468L79.

RUNNING LUCE RANCH

- **5 Bred** Brangus heifers bred 6-8 to low birth weight Brangus bulls. High-quality seedstock with top Brangus genetics.

- **6 Open** Brangus heifers out of top quality seedstock genetics. A fancy set! Pen Show Prospects.

Watch & bid online for FREE at DVAuction Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.
