

Bull and Female Sale
Sept 18-19, 2026 | Tenroc Ranch, Salado, TX
DVAuction.com

Join us!

Reese Ranch and our cattle are resilient in more ways than one. We have faced environmental and personal hurdles for years now. This sale is a goal both of my parents were looking forward to, and I'm sad they are not here to see it, but I know they would be so proud.

Their legacy lives on through these cattle, and the improvements we have made with them in all aspects of the spectrum keep us moving forward. We are proud of and stand behind the quality and performance of these animals.

At the end of the day, if we provide the stewardship to these animals and this land that is needed, we consider it a job well done. Our cattle are more than just a business to us; they are our way of life and what we were called to do.

We have been blessed with so many friendships through this breed, and we look forward to gaining many more. We look forward to seeing you in Salado on September 18 and 19.

Sara Howell

Schedule:

Sept 17: Cattle Viewing Only

Sept 18: Cattle Viewing, Supper with Live Music

Sept 19: Cattle Viewing, Lunch

Sale starts at 1 PM CST

SALE TERMS

Terms: The terms of the sale are cash or check, payable at sale location.

Herd Health: If not from accredited herds, heifers will have brucellosis vaccination or clean test.

Purchaser's Risk: Each animal becomes the risk of the purchaser as sold. Animals will be care for at the purchaser's risk for reasonable length of time.

Breeder's Guarantee: No guarantee is given that a pregnant female will deliver a live calf or that she will carry a calf full term. Bulls sell with satisfactory semen test within 30 days of sale.

Liability: The Sales Management and/or Auctioneer has been employed by the consignors of the animals being sold solely for the purpose of advertising and conducting the subject sale. All information regarding the subject animals as published in

the sale brochure and as announced in the sale is based on representation made to the Sales/Management/Auctioneer have not made any independent investigation to verify the title, health, registration and lien status of the subject animals; and the Sales Management and/or Auctioneer make no representations, either expressed or implied, as to whether or not the subject animals are security under any lien, with legal equitable.

Accidents: Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, Auctioneer nor seller assumes any responsibility in this manner and disclaims any liability, legal or otherwise in the event of accident or loss of property.

Announcements: Announcements from the auction block will take precedence over the printed material in this catalog. Buyers are therefore cautioned to pay attention to any such announcements.

♂ KR 191/13 ♂ KR1121/20
Hefte Ranch H130 CHEROKEE 2C10
♂ Hefte Ranch A78 ♂ 7H15

968 is extremely well-balanced, feminine, maternal and travels well with a solid structure. Sired by Hefte Ranch H130, a KR 191/13 son, who has produced consistently high quality females. Hefte Ranch H130 was heavily sought after for his eye appeal and performance. We have confidence this female will perform for your program just like her dam, Cherokee 2C10 that has embodied fertility, longevity, and extremely good udder. 968 sells exposed to BSR Trust Fund (#20242246), a Valedictorian son.

4022 combines the proven maternal strength of Hefte H130 with the influence of Red Doc 8229, offering the femininity, structural integrity and brood cow presence that define long-lasting, productive females. She sells heavy bred to Passion Farms Casanova ET 4012, a rising young herd sire in the top 15% for 6 EPD traits and tracing back to our cornerstone donor Red Doc 8249. Casanova was selected by G18 Farms to lead their breeding program. 4022 offers proven maternal genetics, an elite mating and the predictability to move any breeding program forward.

Setting the Standard

in bull, heifer and specialty cattle development.

Sandhills Feeders partners with cattle producers who value data, discipline, and long-term genetic integrity. Our development program is not designed for every operation — and that is intentional.

- Simple, transparent pricing
- 24/7 live pen cameras
- Responsible animal development
- Monthly performance updates
- Owner-operated

Transparent. Disciplined. Accountable.

KK The Valedictorian

KK VALLEY GIRL

csc playmaker

PC MISS PEACHES 317/7

RPV 30/9

BV Princess Peach is halter broke and ready to hit the show ring! Peach is a striking, high-quality female that combines an attractive, feminine look with genuine shape and dimension. Long-spined and elegant in her design, she's bold through her rib, powerful through her hip, and carries plenty of muscle into her lower quarter. She's one that truly glides in motion, but is just as much of a showstopper on the standstill. With a great personality, a pretty head, and a pedigree that combines the best of newer and older generation genetics, Peach has plenty to offer both in and out of the show ring. She's out of Kalli's 2018 Champion Donated Heifer from Pitchford Cattle and the 2023 National Champion Bull, SGBI High Point Bull, and sire of many champions, KK The Valedictorian. Buena Vida Cattle Company retains the right to one flush guaranteeing 6 embryos.

TRIPLE P'S BLUEPRINT

BLYTH

300

707/1

SR 10/2

When choosing our consignment for the Red Dirt Gert Sale, we thought long and hard about what to bring. We feel Miss Coronita 507 (20257900) checks all the boxes. This young female packs the genetics, the look and the docility buyers look for and demand when choosing the right animals. Miss Coronita is sired by Triple P's Blueprint (20231950) going back to SR Sendero (20195965). On the dam side, Schuster Farms 707/1 (20171268) produced a many times champion for Adrian Garza and raised a good one in this young female. Miss Coronita 507 sells dog gentle, halter broke and ready for the show road, just in time for state heifer validation.

AZTEC 205K

WHISKEY 5380

♂ VESPER 1/20

♂ ANGUS

Zoomie is a Star 5, tier II (75% Gert) daughter of Aztec 205K, and a proven Briggs cow who's sired by Briggs 085/11. Her lines include the power genetics of Harris Farms 190E, Vegas Briggs, and King Ranch 921/15. This combination never disappoints with a docile nature, low input/high production ratio, excellent utter structure, high milk production, clean stout structure, clean tracking, and calving ease. We like the capacity this combination brings together with femininity and look forward to seeing what her future holds. Started on a halter.
